### **DETAILED ACTION**

This Office action is in response to the amendment filed November 14, 2005 in which claim 1 was amended.

#### ***Specification***

1. The disclosure is objected to because it contains an embedded hyperlink and/or other form of browser-executable code. Applicant is required to delete the embedded hyperlink and/or other form of browser-executable code. See MPEP § 608.01.

#### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 4-6 and 13-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 5, 13 and 14, it is not clear what "system-compatible functional composition" means. The examiner has looked to the specification for guidance and only finds that this language is defined as "a functional composition" and how it relates to a fragrance in the candle composition. It is not clear what effect a system-compatible insect repellent or air freshener would have when used in the candle composition. Clarification and/or correction are required.
